## 1. Introduction

This document is intended to describe the LST200 firmware release changes in detail.

## 2. Documents List

Document Number/Name	Description
MB_Bootloader_AABBCC_YYYYMMDD_CRC_HASH.bin	LST200 MB Bootloader
MB_Application_AABBCC_YYYYMMDD_CRC_HASH.bin	LST200 MB Application
3KXL065017G0013_AABBCC_YYYYMMDD_CRC.bin	LST200 MB Bootloader + Application
HMI_Bootloader_AABBCC_YYYYMMDD_CRC_HASH.bin	LST200 HMI Bootloader
HMI_Application_AABBCC_YYYYMMDD_CRC_HASH.bin	LST200 HMI Application
3KXL065017G0014_AABBCC_YYYYMMDD_CRC.bin	LST200 HMI Bootloader + Application

## 3. Release History

### ❖ 2020-07-31 Release 02

#### ▪ Version Change Notification

MB board	Comments
Subpart version	Update from 010000 to 010001
Module Version	Update from 010000 to 010001
Design Version: Bootloader	NA
Design Version: Application	Update from 010000 to 010001

HMI board	Comments
Subpart version	Update from 010000 to 010001
Module Version	Update from 010000 to 010001
Design Version: Bootloader	NA
Design Version: Application	Update from 010000 to 010001

#### ▪ Released Files:

File Name	Description
MB_Bootloader_010000_20200623_7C287484_f03f656.bin	MB Bootloader to on-line update
MB_Application_010001_20200731_7C287484_f03f656.bin	MB Application for on-line update
3KXL065020G0013_010001_20200731_F7933C6F.bin	For PCBA supplier to off-line programming MB
HMI_Bootloader_010000_20200623_7C287484_f03f656.bin	HMI Bootloader to on-line update
HMI_Application_010001_20200731_7C287484_f03f656.bin	HMI Application to on-line update
3KXL065020G0014_010001_20200731_F7933C6F.bin	For PCBA supplier to off-line programming HMI

**Commented [JL4]:** Latest release be put in the first

**Commented [JL5]:** This is the virtual Sub part number. It shall be the same as the Revision in the document header.

**Commented [JL6]:** Describe the change of Subpart version, module version and Design version.

**Commented [JL7]:** All the files shall be listed here every time.

<b>ABB</b>		<b>Firmware Release Notes LST200</b>			<b>3KXXXXXXXXXX</b>
Responsibility: <b>IAMA TC China</b>	Date: <b>2020-07-31</b>	Language: <b>EN</b>	Filing system <b>Alfresco</b>	Revision: <b>02</b>	Page: <b>4/4</b>
Issued by: <b>See Author</b>		Reviewed: <b>See reviewer</b>	Approved: <b>See approver</b>		Area of validity: <b>&lt;Product Series&gt;</b>

▪ **Change Reason:**

- 1) linked to ECN202009
- 2) The level value will freeze and no indication output, if “echo lost” happens.

▪ **Firmware Changes:**

- 1) MB Application: change the “echo signal lost” from “maintenance” to “failure”; change the default timer to raise “signal lost” from 30 seconds to 1 minute.
- 2) HMI Application: add the support of negative value to be displayed.

❖ **2020-06-23 Release 01**

▪ **Version Change Notification**

None.

▪ **Released Files:**

File Name	Description
MB_Bootloader-010000_20200623_7C287484_f03f656.bin	MB Bootloader to on-line update
MB_Application-010000_20200623_7C287484_f03f656.bin	MB Application to on-line update
3KXL065020G0013_010000_20200623_F7933C6F.bin	For PCBA supplier to off-line programming MB
HMI_Bootloader_010000_20200623_7C287484_f03f656.bin	HMI Bootloader to on-line update
HMI_Application_010000_20200623_7C287484_f03f656.bin	HMI Application to on-line update
3KXL065020G0014_010000_20200623_F7933C6F.bin	For PCBA supplier to off-line programming HMI

▪ **Firmware Changes:**

Initial release.

**4. Document Revision**

Version	Description	Date
A	Initial version	2020-09-03
B	Update after review in firmware team: In chapter Release Files, all the files shall be listed.	2020-09-08

**Commented [JL8]:** Which ECN it linked to?  
List the change source in the ECR.

**Commented [JL9]:** More detailed modifications in the source code

**Commented [JL10]:** List the change history of the release notes template.  
Please remove this part at the final release notes.
